

Pneumatic Tensioning Clipper

SHENGMAO PACKAGING EQUIPMENT

APPLICATION

A pneumatic unit that clamps and tensions the casing before closing and cutting. Intended for formed meat rolls and ham or sausage applications.

Typical uses

Mutton and meat rolls • Ham and sausage packaging

AT A GLANCE

- Adjustable pulling force
- Adjustable clipping force
- Clamping and tensioning cylinders

Technical data

Pneumatic Tensioning Clipper

Compressed air	0.4–0.6 MPa
Dimensions	900 × 420 × 830 mm
Weight	28 kg
Casing diameter	70–140 mm
Production frequency	10 cycles/min
Clip references	U810 / 801

Function and operation

The clamping cylinder holds the film or casing. The stretching cylinder tensions it to the required setting before closing and cutting.
